

N SWNA Newsletter

Spring is heating up and special projects are coming to fruition. The tennis courts received wind screens and security monitoring. Mature fir trees will be planted along the canal to replace diseased trees and add to our neighborhood aesthetic. The Board continues to engage new homeowners into our neighborhood by gifting welcome bags and promoting social clubs.

Amendment Vote Coming!

Many neighbors expressed a desire for a permanent amendment to the CC&Rs to allow **5 ft wrought iron fencing** for homes bordering Jullion park. The Board is putting forth an amendment to all lot owners to approve the new height. Why approve?

- Improve security for homes near the park
- Taller fences keep pets in yards
- Taller fences keep unleashed dogs out of yards
- Allow for more uniformity along the park

Be on the look out for the ballot by May 20th. We need over 190 approvals to allow for this amendment. **Again this gives our neighbors the option for a fence taller than 4ft, but does not require they build one.**

Tennis Court Rules

To preserve the condition of our newly conditioned courts: Only tennis and pickleball are permitted. **All other activities are prohibited.** **All animals are prohibited.** Utilize local parks and schools for other activities.
